music is a succession of tones through time how can a sequence of sounds both express emotion and evoke it in the listener drawing on a wide variety of opinions storr argues that the patterns of music make sense of our inner experience giving both structure and coherence to our

feelings and emotions

the presence of the phenomenological body is central to music in all of its varieties the oxford handbook of music and the body brings together scholars from across the humanities social sciences and biomedical sciences to provide an introduction into the rich multidimensional world of music and the body

the study of music and the brain can be traced back to the work of gall in the 18th century continuing with john hughlings jackson august knoblauch richard wallaschek and others these early researchers were interested in localizing musicality in the brain and learning more about how music is processed in both healthy individuals and those with dysfunctions of various kinds since then the research literature has mushroomed especially in the latter part of the 20th and early 21st centuries the oxford handbook of music and the brain is a groundbreaking compendium of current research on music in the human brain it brings together an international roster of 54 authors from 13 countries providing an essential guide to this rapidly growing field the major themes include music the brain and cultural contexts music processing in the human brain neural responses to music musicianship and brain function developmental issues in music and the brain music the brain and health and the future each chapter offers a thorough review of the current status of research literature as well as an examination of limitations of knowledge and suggestions for future advancement and research efforts the book is valuable for a broad readership including neuroscientists musicians clinicians researchers and scholars from related fields but also readers with a general interest in the topic

how can broadcasting help us understanding music and its cultural role both historically and today to answer this question music and the broadcast experience brings together fourteen leading music and media scholars who explore how music and broadcasting have developed together throughout the twentieth and into the twenty first centuries

since the 1950s writing about popular music has become a staple of popular culture rolling stone vibe and the source as well as music columns in major newspapers target consumers who take their music seriously rapidly proliferating fanzines websites and internet discussion groups enable virtually anyone to engage in popular music criticism until now however no one has tackled popular music criticism as a genre of journalism with a particular history and

evolution pop music and the press looks at the major publications and journalists who have shaped this criticism influencing the public's ideas about the music's significance and quality the contributors to the volume include academics and journalists several wear both hats and some are musicians as well their essays illuminate the complex relationships of the music industry print media critical practice and rock culture and they repeatedly dispel the notion that being a journalist is the next best thing to being a rock star author note steve jones is professor of communication at the university of illinois chicago among his books are cybersociety computer mediated communication and community editor and rock formation popular music technology and mass communication

a specter lurks in the house of music and it goes by the name of race write ronald radano and philip bohlman in their introduction yet the intimate relationship between race and music has rarely been examined by contemporary scholars most of whom have abandoned it for the more enlightened notions of ethnicity and culture here a distinguished group of contributors confront the issue head on representing an unusually broad range of academic disciplines and geographic regions they critically examine how the imagination of race has influenced musical production reception and scholarly analysis even as they reject the objectivity of the concept itself each essay follows the lead of the substantial introduction which reviews the history of race in european and american non western and global musics placing it within the contexts of the colonial experience and the more recent formation of world music offering a bold new revisionist agenda for musicology in a postmodern postcolonial world this book will appeal to students of culture and race across the humanities and social sciences

richard taruskin's sweeping collection of essays distills a half century of professional experience demonstrating an unparalleled insider awareness of relevant debates in all areas of music studies including historiography and criticism representation and aesthetics musical and professional politics and the sociology of taste cursed questions invoking a famous catchphrase from russian intellectual history grapples with questions that are never finally answered but never go away the writings gathered here form an intellectual biography that showcases the characteristic wit provocation and erudition that readers have come to expect from taruskin making it an essential volume for anyone interested in music politics and the arts

with the report of the 16th meeting 1894 was issued the secretary's official report of the

special meeting chicago 1893 containing a ršum of the reports of meetings from 1876 to 1892

a world renowned scholar and musician helps christians respond with theological discernment to music
